THIS IS OUR GOAL!

Xenios USA is a company focused on development, production and marketing of professional workout tools for those who like to play with Fitness: Functional Training, Weight Lifting, Power Lifting, Strength and Conditioning are just some of the fields our products are employed in.
The road to the fittest is made of heavy-duty workouts and so the equipment
needs to be able to bear such severe training sessions.

Xenios USA was born in 2009, gathering all the ideas, training methods, and trends of the worldwide workout markets: learning from the legacy of gym training and surfing the new wave of the Functional Training and Performance Training methods. Xenios USA hired a team of experienced master trainers, biomechanical engineers, product managers, and marketing managers in order to build and continuously innovate a full range of products that match keep up with trends in fitness.

Xenios USA products were originally developed and continue to be developed by a joint venture team of American and Italian product designers.
Xenios USA's main mission is to provide reliable tools for those who will use them to their limits without having to fight with faulty and easily breakable equipment.

All Xenios USA products are drawn, tested and manufactured by Xenios USA. The process to let an idea come true is strictly guided by the highest standards of product quality.

Each mass production batch tightly monitored with quality control and all products that can't match the Xenios USA requirements are rejected.

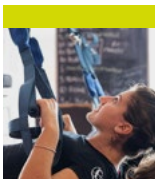

All raw materials and production processes, like steel welding and bending or steel coating are made according to the Xenios USA data sheets and they must match over-the-standard parameters.

Most of Xenios USA's products are furthermore tested and certified by experts of product safety, for example, the TUV-SUD® that was chosen to test all the XRIG™ components.

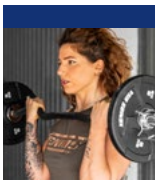

At Xenios USA, we believe in the future of Fitness: we believe most people will sooner or later approach Functional Training classes and fall in love with the incredible performance goals that can be achieved. That is the reason we keep investing all of our time and efforts in the research and development of new training tools that are able to satisfy coaches' needs.

We are proud to have been chosen by many Affiliate Owners as their equipment source and we are furthermore proud to equip some of the most famous Throw Down contests. The daily use of our products by professional athletes is how we learn. Our biggest challenge is to keep going on day-by-day.

NO SAND
Forget the sand leaks! The Xenios USA Wall Balls are filled with an exclusive compound of foam, PE cotton, and rubber.
KEEP ITS SHAPE FOREVER: the filling and covering materials allow the Wall Ball to not warp and keep the original shape over time.
SOFT AND RESISTANT COVERING: The Wall Ball coating increases the grip and makes the ball resistant and durable.

Diameter: 34 mm (35 / 40 / 45 Kg)

The steel core and treatment of the hard-chromed bar ensure a strength and durability above all standards. The use of polyurethane ensures maximum resistance to wear and rubbing. In addition, the unique properties of polyurethane offer athletes a durable and odorless product.

The preloaded EZ barbell bar is made entirely of steel to ensure strength and durability. The polyurethane coating ensures high resistance to friction, shock and wear, and leaves the product completely odourless. The shape of the barbell allows greater involvement of the biceps or triceps muscle, depending on the grip used.

TRAINING MAN'S BAR

The barbell bar Training Man Bar of Xenios USA® has the bar covered in black titanium while the handles are in polished zinc. It is 220 cm long with a diameter of 28 mm and double marks on the knurling, which make it compliant with the Olympic IWF and IPF standards. In addition, it is made with a new thermally treated harmonic steel that supports a tensile strength of 190,000 PSI, with bronze bushings and double ring closing system.

Sku: XSOBAR07

Weight: 20 kg	Length: 220 cm

Features

- 86" Black QPQ (shaft) & Bright Zinc Finish (sleeves) Heat Treated Spring Steel Man Olympic Bar w/Bronze Bushings
- Tensile Strength: 190.000+PSI
- Max. load: 1000 Lbs (453 kg)

MEN **WOMEN** **13.5kg** **28mm**

Do you know a better tool than the EZ barbell to work "easily" on the strength of your arms?
With this special barbell, you can efficiently train certain muscle groups such as biceps and triceps, increasing comfort during work and reducing the possibility of annoying injuries.

Xenios USA® presents Pro WL. Man's Bar, the 28 mm barbell bar ideal for weightlifting-experienced athletes. If the goal is to intensify the workouts, this 20 kg bar equipped with 8 bearings and a double sigeer locking system is the right tool to increase the performance.

PRO WEIGHTLIFTING MAN'S BAR

Sku: XSBOBAR01

Equipped with special heavy duty needle bearings. Double thickness, longer needles, self-lubricating channel.

Weight: 20 kg	Length: 220 cm

Features

- 86" Chrome Plated Finish Heat Treated High-Spring Steel Man Olympic W.L. Bar w/8 Bearings (4x double-case needle + 4x ball)
- Tensile Strength: 240.000+ PSI
- Max. load: 2000 Lbs (907 kg)
- Diameter: 28 mm
- IWF & IPF marks
- Sleeve diameter: Olympic size (2 inch) 49.8 mm

READY FOR WEIGHTLIFTING

MEN | 20kg | BEARING | 28mm | 240K TENSILE STRENGTH | HI-FLEX

BARS RACK
page 126

PRO LADY'S BAR

Sku: XSBOBAR06

Equipped with special heavy duty needle bearings. Double thickness, longer needles, self-lubricating channel.

Weight: 15 kg	Length: 201 cm

Features

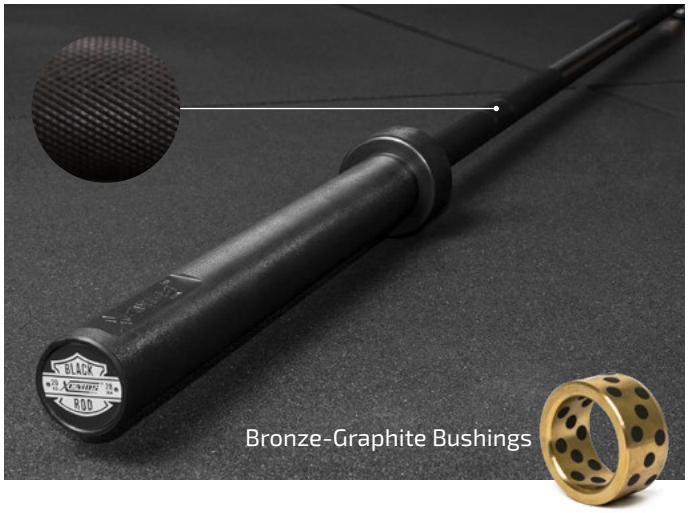

- 79"Bright Zinc Plated - Heat Treated Spring Steel Woman Olympic Bar w/6 bearings (2xdouble-case needle + 4xballs) and dual snap ring closing system
- Tensile Strength: 190.000+PSI
- Max. load: 1000 Lbs (453 kg)
- Diameter: 25 mm
- Olympic IWF & IPF marks
- Sleeve diameter: Olympic size (2 inch) 49.8 mm

READY FOR WEIGHTLIFTING

Designed for women's weightlifting competitions, the Pro Lady's Bar is perfect to withstand any type of drop, offering stability and control even during intense workout exercises. Due to its high flexibility, it can withstand up to a maximum load of 230 kg.

WOMEN | 15kg | BEARING | 25mm | 190K TENSILE STRENGTH | HI-FLEX

The Black Rod is the first weightlifting barbell to be finished with the brand new X-Coating™ treatment, which represents the evolution of ceramic liquid coatings increasing the life of the barbell over time.
The finish layer of the colour adheres perfectly to the steel, as if it were a second skin, preserving the barbell from rust longer, without resorting to any galvanic process in the underlying layer.

XKOT SHIELDED PRO-TRAINING BAR

Sku: XSOBAR13

Weight: 20 kg	Length: 220 cm

Features

- 86" XKOT Shielded - Heat Treated-Spring Steel Man Olympic Bar w/Composite bushings
- Tensile Strength: 250.000+PSI
- Max. load: 1000 Lbs (453 kg)
- Diameter: 28 mm
- Olympic IWF & IPF marks w/o center knurl
- Sleeve diameter: Olympic size (2 inch) 49.8 mm

READY FOR WEIGHTLIFTING

MEN | 20kg | BUSHING | 28mm | 250K TENSILE STRENGTH | HI-FLEX

BARS RACK
page 126

RIFLE PRO-TRAINING BAR

Sku: XSOBAR11

Weight: 20 kg	Length: 220 cm

Features

- 86" Bright Zinc Finish Heat Treated High-Spring Steel Man Olympic Bar w/composite Bronze-Graphite Bushings
- Proprietary Rifle-Grip Knurl
- Tensile Strength: 190.000+PSI
- Max. load: 1000 Lbs (453 kg)
- Diameter: 28 mm
- IWF & IPF marks
- Sleeve diameter: Olympic size (2 inch) 49.8 mm

READY FOR WEIGHTLIFTING

MEN | 20kg | BUSHING | 28mm | 190K TENSILE STRENGTH | HI-FLEX

The distinctive feature of this weightlifting barbell is the knurling called Rifle, which is named after the handle of a pistol. Unlike the classic diamond knurling, the Rifle model allows you to repeatedly use the barbell without annoying abrasions to the hands. It has a torsion resistance of 250,000+ PSI and is tested up to a maximum load of 750 Kg. Guaranteed for life against bending and breakage.

RIFLE WOMAN PRO-TRAINING BAR

Sku: XSOBAR12

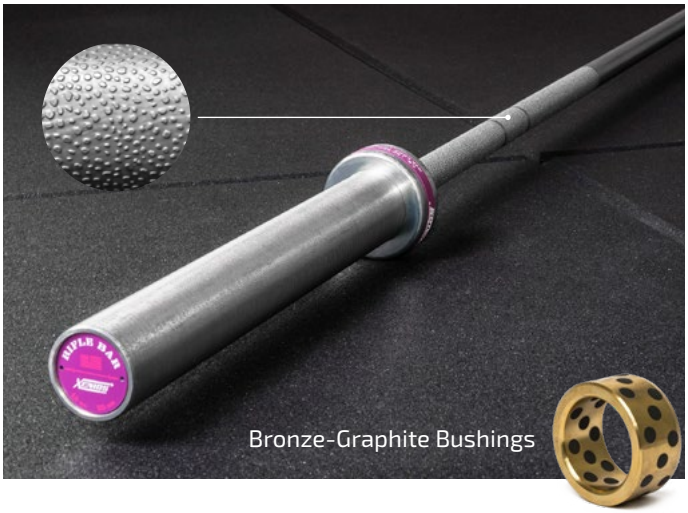

Weight: 15 kg	Length: 201 cm

Features

- 79" Bright Zinc Plated - Heat Treated Spring Steel Woman Olympic Bar w/Composite Bushings
- Tensile Strength: 190.000+PSI
- Max. load: 1000 Lbs (453 kg)
- Diameter: 25 mm
- Olympic IWF & IPF marks w/o center knurl
- Sleeve diameter: Olympic size (2 inch) 49.8 mm

READY FOR WEIGHTLIFTING

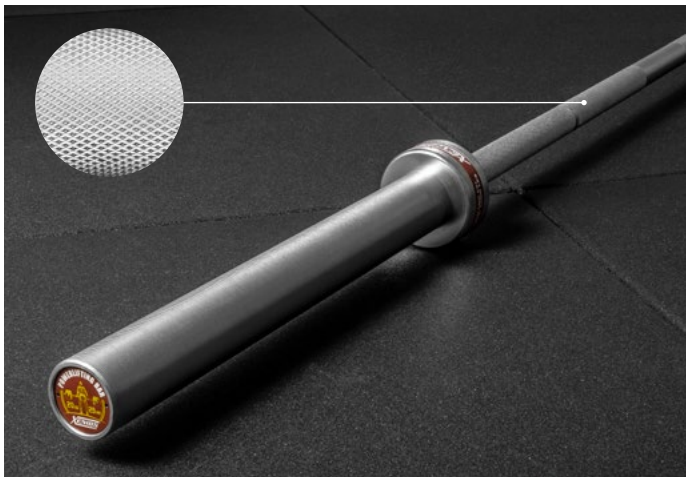

WOMEN | 15kg | BUSHING | 25mm | 190K TENSILE STRENGTH | HI-FLEX

Compared to traditional Olympic barbells, the Rifle Woman Pro-training Bar offers greater hand grip to the bar and a significant reduction in pain and injuries you are accustomed to while using a traditional barbell.
It is characterized by a particular type of knurling of the handle that makes the grip much more comfortable; it is a patent developed by Xenios USA®, the Rifle Knurling, designed and inspired by the handles used in firearms.

BARS RACK
page 126

POWERLIFTING BAR

Sku: XSOBAR01

Weight: 20 kg	Length: 220 cm

Features

- 86" Bright Zinc Finish Heat Treated Spring Steel Man Power Lifting Bar w/oversize Bronze Bushings
- Tensile Strength: 200.000+PSI
- Max. load: 2000 Lbs (907 kg)
- Diameter: 29 mm
- IPF marks & Squat Knurl
- Sleeve diameter: Olympic size (2 inch) 49.8 mm

READY FOR POWERLIFTING

MEN | 20kg | BUSHING | 29mm | 200K TENSILE STRENGTH

The "groove" of the sleeves of the Powerlifting Bar prevents the plates from slipping during use and the knurled handle in the shape of a "diamond" gives a unique grip. The self-lubricated bronze bushings guarantee the perfect rotation of the sleeves with any load.
The steel of this barbell bar boasts a torsional resistance of 220,000+ PSI and all parameters are in compliance with the regulations of the International Powerlifting Federation.

ALU TECHNIQUE BAR

Sku: PSAOBAR01

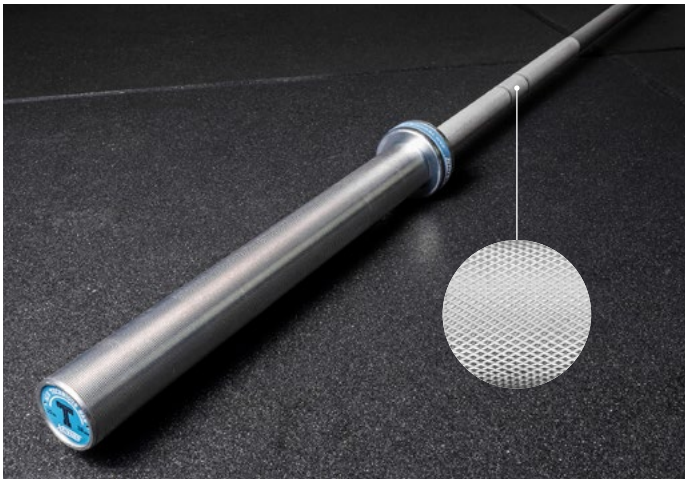

Equipped with special heavy duty needle bearings.
Double thickness, longer Needles,
self-lubricating channel.

Weight: 10 kg	Length: 220 cm

Features

- 86" Aluminum Technique Bar w/6 bearings (2x double-case needle + 4x ball)
- Max. load: 100 Lbs (45 kg)
- Diameter: 28 mm
- IWF & IPF marks
- Sleeve diameter: Olympic size (2 inch) 49.8 mm

WOMEN MEN 10kg BEARING 28mm

Alu Technique Bar is the perfect barbell bar for approaching the disciplines of weight lifting and powerlifting, presenting all the requirements to meet the workout of a beginner.
Due to its characteristics, 220 cm long and 10 kg of weight, it fits perfectly to the workouts of beginners, both men and women.

BARS RACK
page 126

ON RAMP BAR

Sku: PSAOBAR03

Weight: 10 kg	Length: 170 cm

Features

- 67" Heat Treated Steel Technique Bar w/Bronze Bushings - Bright Zinc Finish + Black e-coating (shaft) & Bright Zinc Finish (sleeves)
- Max. load: 100 Lbs (45 kg)
- Diameter: 25 mm
- IWF & IPF marks
- Sleeve diameter: Olympic size (2 inch) 49.8 mm

WOMEN JUNIOR 10kg 25mm

The On Ramp Bar is a 10 kg barbell bar designed for those who take their first steps in weight training and powerlifting.
Long 170 cm and with a diameter of 25 mm, the On Ramp Bar is built with the same quality as the other barbells competition Xenios USA and can be used by any athlete, regardless of age or level of learning

ALU JUNIOR TECHNIQUE BAR

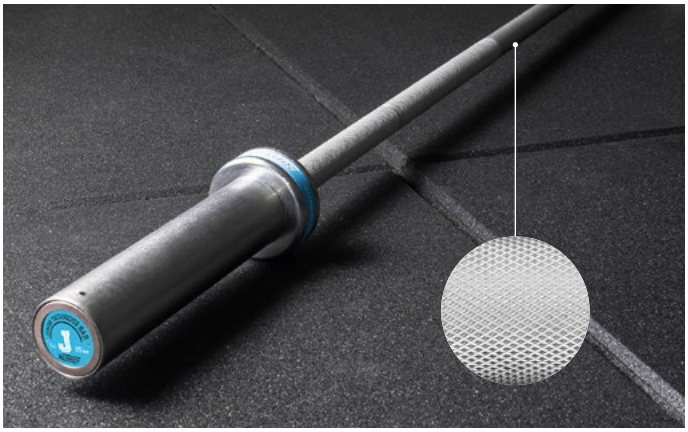

Sku: PSAOBAR02

Weight: 5 kg	Length: 180 cm

Features

- 72" Aluminum Technique Junior Bar w/Bronze Bushings
- Max. load: 60 Lbs (27 kg)
- Diameter: 25 mm
- IWF marks
- Sleeve diameter: Olympic size (2 inch) 49.8 mm

Alu Junior Technique Bar is the perfect technical barbell bar for approaching the disciplines of weight lifting and powerlifting, a tool that has all the requirements to meet the workout of a beginner.
Due to its size, it adapts to the workouts of women and children: 180 cm long and 5 kg in weight, diameter 25 cm and sleeve 21,5 cm.

LEARNING BAR

Sku: XSLEARNBAR01

IN/OUT Markers for Weight and Olympic Lifting Technique Learning

Weight: 0,3 kg	Length: 150 cm

Features

- Material: PE
- Color: Black

The Learning Bar allows you to warm up your joints before training and perfect your movements. It has a diameter of 28 mm. and two notches that reproduce exactly those of the handles of the Olympic barbells to be used by newbies and beginners. Not suitable to be loaded with plates.

AXLE BAR

Sku: PSAXLBAR01

Weight: 12 kg	Length: 210 cm

Sku: PSAXLBAR02

Weight: 9.5 kg	Length: 152 cm

Features

- Max. load: 330 Lbs (150 kg)
- Grip diameter: 49 mm
- Material: Powder coated steel
- Color: matte black

Essential tool for anyone who wants to train with Strongman workouts, the Axle Bar of Xenios USA is available in two versions: a short, weight 9 kg. and length 152 cm, and a long, weight 12 kg and length 210 cm. Both models have a diameter of 50 mm, a feature suitable to increase the grip force. The maximum load of 300 kg.

HEAVY DUTY TRAP BAR

Sku: PSOHDTBAR01	
Weight: 32 kg	
Length: 210 cm	Width: 70 cm

Features

- Max. load: 1000 Lbs (453 kg)
- Grip diameter: 32 mm
- Material: steel
- Sleeve diameter: Olympic size (2 inch) 49.8 mm

Knurl

The hexagonal bar is the best tool to perform detachments from the ground in total safety. Ideal for both beginners and advanced athletes, this equipment is essential for any gym and functional training.

CAMBERED SQUAT BAR

Sku: PSSQBAR01	
Weight: 22.5 kg	
Length: 228 cm	Width: 45 cm

Features

- Max. load: 1000 Lbs (453 kg)
- Grip diameter: 32 mm
- Material: steel
- Finishing: NP plated
- Sleeve diameter: Olympic size (2 inch) 49.8 mm

⚠ All Xenios USA bars are not pre-equipped with collars and plates

It is the ideal tool to increase the weight load in the back squat and especially to perform in total safety any exercise of this type at high intensity.
The handles facilitate grip while exercising and the coating offers greater comfort even when lifting the maximum load.

POWERLIFTING CALIBRATED STEEL PLATES

Material: Calibrated Steel

The Xenios USA® Calibrated Powerlifting Discs are made of steel and calibrated within +/-10 grams of tolerance, using brass calibration caps inserted on the rear surface of each disc. They have a 50 mm diameter of the internal plug hole, slightly lower than the usual diameter of the Bumper discs, which allows to have a better grip on the barbell sleeves. In addition, the reduced thickness of each disc allows you to load as much weight as possible, eliminating any waste of space.

FRICTION FRACTIONAL PLATES

Sold as a unit

The Fractional Discs of Xenios USA are part of the world of "change plates", that is those discs used to add the "commas" to the training loads with barbell (the weight range goes from 0.125 kg to 5 kg); thanks to the use of a steel core, have a reduced thickness that saves space on the sleeve of the balance.
Some weight cuts are called "friction" because inside the central hole there is a rubber counter-ring, very useful to generate more friction on the sleeves and, therefore, to act as a further system of holding the discs loaded on the sleeves.

EVO 3 FINGERS GYMNASTIC GRIP

Save seconds during your transitions.

Design – The elastic bands for your fingers allow an unbelievable transition speed between different exercises, more so than the classic holes on the previous model. **The elastic band sewn into the Velcro®** allows you to perform at your best, even when the gymnastic grips are not required.

Material - 2,1 mm Made in Italy genuine leather provides maximum resistance, protection, and comfort.
The special water-repellent treatment increases its overall resistance by preventing the absorption of sweat, which can harden the material.

Rig Configurations

Customize the heart of your training zone, with no limits!
Xenios USA provides **custom Rig configurations** to meet any space and training need for your facility.
Based on the size and number of users of your training zone, you can better manage your space.
The facilities' customizations are potentially **unlimited** to adapt to any Box or gym due to the wide range of **add-ons and accessories**. Your **custom Rig** will become the beating heart of your gym!
Xenios USA builds versatile facilities that meet the **highest stability and safety standards**, thanks to an accurate design and a rigorous production process.

LIVE TO WOD · WOD TO LIVE ·

CREATING TRAINING ZONES
SINCE · 2009

Choose your type of facility: The Essentials, Magnum, Magnum Plus?
Besides the number of training stations, you can choose among **three upright sizes** to build your Rig. The **Essentials** upright comes with a 6x6 cm square cross-section and 3,5 mm steel width, while the **Magnum** and **Magnum Plus** upright come with 8x8 cm square cross-section and 4 mm steel width. The **Magnum Plus upright is featured with holes on its four sides** to provide unlimited building customization!

Do not limit yourself! Let's design your training zone.

Facility for **6 athletes**

With: 482 cm
Length: 258 cm
Height 270 cm

This Rig comes in two models:
- The Essentials
- Magnum Series

Facility for **8 athletes**

With: 305 cm
Length: 193 cm
Height 270 cm

This Rig comes in three models:
- The Essentials
- Magnum Series
- Magnum Plus

Facility for **6 athletes**

With: 305 cm

- It comes with two Pull-up bars and it can be mounted either double or single
- Wall or ceiling mounted
- It can be series-mounted

CEILING MOUNTED

XENIOSUSA.COM

RUBBERIZED KETTLEBELLS

Each detail is designed to make the difference!

4 - 6 - 8 - 12 - 16 - 20 - 24 - 28 - 32
36 - 40 kg

More quality, less smell: the high-quality virgin rubber that covers the kettlebell eliminates the classic smell of low-quality rubber.

More durability and resistance: the rubber-coating increases the kettlebells' resistance to rubbing, protecting them from scratches and rust.

Monthly payments from 24 to 60 Months

XENIOS USA® LEASING ANS FINANCING

Manage your investment, pay monthly rates for all of the Workout Equipment you need to complete your gym or box.

There are many advantages of a Leasing contract

- You can sign a contract starting from 500 €
- Up to 10.000 € order value, you'll simply have to provide basic data of the purchasing company and the financing company will let you know whether your enquiry is approved or not within 48 hours!
- For +10.000 € order value, you will have to provide additional documents, but the result will still be available within 48 hours!
- A leasing contract doesn't affect your bank credit capacity. It stands as a long-term rent, therefore, for example, you would still be able to file a mortgage enquiry to your own bank for any kind of purpose.
- A leasing contract features a full-risk insurance that protects you from risks like theft or fire.
- Once the leasing contract is over, you will be able to decide which option to choose: to redeem the products you have paid for, to return them, to extend the leasing time by paying a lower monthly fee, or to renew the equipment and sign a new leasing contract for the brand-new workout tools.
- The leasing contract of Xenios USA® & Grenke spa can also signed by non-for-profit companies.
- Thanks to the leasing contract Xenios USA® configured with Grenke spa, you have the option to finance an Assault Bike, an Assault Air Runner, a Concept2 rower, or all of the equipment you need to outfit your workout facility: from the ground up!

WEIGHT DROP RUBBER TILE

Sku: XSWDRBTL

Medium-sized, rounded rubber granulate edges.

100 x 100 cm
50 x 50 cm

Indoor

Outdoor

Budget wise product

Custom color on demand

Pros:
Budget wise product
High thickness tiles for equipment long lasting
No tile grooves on top surface

Cons:
Low density and medium-sized SBR granulate
Limited water proof (moisture can pass-thru)
Easy to get chipped

Best for:
Weight drop workout areas
Outdoor uses (where water or moisture need to pass-thru)
Bars and Bumpers long lasting and care
Underneath concrete flooring long lasting and care*

*It is always recommended to install a Weight-Drop suitable floor on to a proper underneath concrete floor. Weak concrete floors or wood/plywood floors may get damaged due to weight dropping even if a thick rubber flooring is installed on.

Applications: Indoor & outdoor heavy duty workout areas

Material: Recycled SBR rubber granulate bonded with a cold-cure PUR (Pigmented SBR or EPDM mixed blend are available upon request)

Granulate structure: Fine-Medium sized

Tile Kind (Other dimensions upon request):

100 cm x 100 cm - Flat bottom	50 cm x 50 cm - Flat bottom

Weight:

20 mm thickness - 18 kg/sqm	30 mm thickness - 28 kg/sqm

Certifications:
Sound Insulation UNI EN ISO 10140-3:2015 and UNI EN ISO 717-2:2013
Termal resistance UNI EN 12667:2002: Thermal conductivity (W/m·K): 0.1480 - Thermal Resistance (m2·K/W): 0.1345
Slip Resistance - EN13893:2005 and EN 14041:2018: Class DS

Color:

Black

Custom colors available on request.
Tip: Make your floor by using more tiles' colors in order to have visible workout areas

Mass density (DIN EN ISO 845):
850÷900 kg/m³ ± 5 %

Dimensional tolerance (DIN 7715-2 M4):
± 1.5 %

Interlocking System (option):
ABS pins - M15x85 (8 pins per sqm.) (only for 30+ mm thickness)

Material thickness: 10 - 80 mm (Dimensional tolerance: ± 5%.) (Xenios USA XFloor™: 20 - 30 mm)

Testing thickness (DIN 53534): 20 mm

Fire classification (DIN EN 13501-1) Section 6.2: E_{FL}

Temperature stability: - 20°C to +70 °C

Water/Damp test: No water proof

Flooring developed for standard fitness zones with several colors and finishes.

Evo Fitness Flooring Tile is an exceptional flooring for standard fitness areas with cardio and indoor cycling.

Made with 100% virgin rubber of the highest quality, it is a long lasting floor, resistant and flexible at the same time.

Thanks to Xenios USA newest vulcanization process, Evo Fitness Flooring Tile is produced with the right properties to support the cardio equipment, decrease the vibrations and reduce the noise of dumbbells.

Evo Fitness Flooring Tile is waterproof so it does not absorb water or sweat, avoiding the possibility of any unpleasant smells and making it super easy to clean. It is available in a wide range of colors, including wood and the marble effect colors. Its installation is simple and easy as the tiles interlock by puzzle.

Evo Fitness Flooring Tile can be customized as per customer request with any logo or design, so each fitness center can be original and will stand out from the others.

Evo Fitness Flooring Tile is the best solution

- Resistant and versatile
- Acoustic Isolation
- Reduce vibrations
- Elegant design

The most eco-friendly and price-wise flooring. THE ESSENTIALS Fitness Flooring Tile is 100% compatible with Evo Fitness Flooring Tile, so you can highlight the rooms with functional training markings in any color, an easy optimization of your budget.

THE ESSENTIALS Fitness Flooring Tile is the exceptional flooring at the right price.

Not only is this a price-wise product, but is also the Xenios USA's respectful contribution to the environment. THE ESSENTIALS Fitness Flooring Tile is produced using scraps of our Fitness flooring production, we recycle and produce it again in order to make an eco product with the same properties as our premium product, with a more budget-friendly price.
THE ESSENTIALS Fitness Flooring Tile surface is water proof, as it is made of compact virgin rubber that does not allow water or sweat to penetrate it, therefore, the product doesn't smell and it will keep the same appearance for a longer amount of time. THE ESSENTIALS Fitness Flooring Tile is very easy to clean and maintain by simply using water and non-abrasive soap for daily cleaning.

THE ESSENTIALS Fitness Flooring Tile is produced in different spotted colors: Blackstone, Grey, Terra, Viola and Granite, but it can also be produced as per customer request, for instance with red dots or yellow dots.

Fitness room made with THE ESSENTIALS Fitness Flooring Tile for:

- Competitive price
- Excellent grip
- Water proof
- Easy installation
- Acoustic Isolation
- Non marking
- Customization

ENJOY while training
Choose one of our training circuits or just create your own functional training circuit.
There is no limit for customization and design on functional markings on the floor.

The markings of Fitness Tile Workout Path functional training circuits are made with insertions of the same rubber in different colors, so the markings will never disappear. Design your functional area you'd like and provide your users with original training programs and a modern visual of floors and walls. In our catalogue, we offer you the most useful functional training

markings where you can workout using many different programs of speed, reaction, coordination, agility, balance, rhythm or strength, and we invite you to send to us your own ideas in order to make it as real as possible.

- For indoor and outdoor use
- No sand filling needed
- Suitable for Crosstraining, Fitness, Physiotherapy Practices, Gyms

XENIOSUSA.COM

XENIOS USA® PRODUCTS WARRANTY CHART

As per the sole purposes of the herein warranty chart, from here in after, "Xenios USA® LLC" has to be meant as "Xenios USA® LLC, or as one of its International Licensees, Agents and/or Dealers".

Xenios USA® Products, carry a limited two (2) year warranty. Xenios USA® LLC will warrant products from defects in material, functionality and workmanship, only to the original owner (who needs to prove his status by having the original purchase document). Xenios USA® warranty's rights are not transferable. The limited two (2) year Warranty of Xenios USA® Products is valid only for individual purchasers who bought the Xenios USA® Products for personal use. In case a Xenios USA® Product was bought by a business entity for commercial or professional uses, the Xenios USA® Product Warranty is limited to one (1) year only.
Even though the above said, some Xenios USA® Products may carry a shorter or longer limited Warranty, either in case the original purchaser is an individual and in case the same is a business entity(1). To learn more about the Xenios USA® Products that carry a special limited Warranty, visit www.xeniousa.com at the Warranty Chart page.
All second-hand Xenios USA® Products sold by Xenios USA® LLC only, feature the same Warranty terms provided to the Xenios USA® brand-new products.
Xenios USA®'s Products Warranty time-frame starts from the date of purchase of each product as stated on the original purchase document.

Xenios USA® Products also carry a 7-day limited Warranty for evident manufacturing defects, discovered by the original purchaser within 7 days from the delivery of the products.

Should any Xenios USA® Product be found damaged or missing upon delivery, purchaser shall be entitled to a product replacement and/or paid-price refund only in case the delivery of the goods was accepted by the rules of inspection and acceptance of a goods delivery. Such rules can be found as a Warning Label on to each shipment package. E.G.: a damaged or missing items delivery that was not accepted as "goods unchecked", shall void any right of claim of the purchaser. E.G.: shouldn't the purchaser keep the cartons of a damaged/missing items delivery, the same could not be entitled to be refunded by the freight insurance company appointed for such goods shipment.

The Xenios USA® Product Warranty doesn't provide to the customers any un-conditioning product returning right. Any product returning policy is stated and ruled by each Xenios USA® Dealer and/or Reseller according to his own Country Laws and Regulations about the consumers' rights care. The www.xeniosusa.com on line shop un-conditioning product returning policy can be read within the Sales Terms of the same website.

Xenios USA® Warranty validity is always subjected to the previous inspection and judgment of the damaged and/or broken and/or defective product or product's part/s by Xenios USA® LLC. Any warranty claim has to be submitted by the customer to Xenios USA® LLC providing all necessary information to judge the claim: e.g.: customer data, original purchase invoice, brief description of the claim defect, photos and/or video or the claim defect, etc.

In case of any warranty incident, Xenios USA® LLC, is bond only either to replace the entire product or to replace the found defective product's part/s. Xenios USA® LLC is bond to bear either the cost of the product/part to be replaced and the shipment cost of the same up to the customer's address. Xenios USA® LLC doesn't provide any repairing service under warranty. Should a customer need a repairing/fixing service, all cost (such as packaging, shipment, manpower etc.) shall be at same customer's own. Xenios USA® LLC shall decide by his own whether a damaged/defective product has to be entirely replaced or fixed by providing to the customer one or more product's parts to be replaced. Customer will never be allowed to enquiry for an entirely product replacement without being authorized by Xenios USA® LLC. The defective/damaged product or product's part/s disposal shall be always at customer's responsibility. Should Xenios USA® LLC require a damaged/defective

product or product's part/s pick-up, it shall be at Xenios USA® LLC own. In case Xenios USA® LLC reject a customer's warranty claim, any shipment cost of the claimed damaged/defective product or product's part/s from customer to Xenios USA® LLC, with inspection purposes, shall be born by the same customer, even in case the same product or product's part/s shall be found damaged or defective under warranty by Xenios USA® LLC.
Xenios USA® LLC is not bond by any further purchaser's own Country laws and regulations on products' warranty, unless they are issued by the same Country from where goods were invoiced and/or shipped.

Xenios USA® LLC doesn't warrant Products from any kind of breakage and/or damage and/or consequence of the same, resulting from an improper use and/or a misuse, and/or a mishandling, misapplication, alteration or modification, and/or abuse of them and/or a shortage of care and maintenance either in terms of use and in terms of handling and storing (please refer also to the "Safe Use Guide" and "Care and Maintenance Guide" for the Xenios USA® Products. Both can be read and downloaded on the Xenios USA® website: www.xeniosusa.com). Product's main use warnings that may result in to a warranty void, are also here below listed.
Xenios USA® Warranty doesn't apply to any damage occurred to properties and/or persons and/or animals, during the assembling and/or installing procedures of the Xenios USA® Products, and/or while they are being used. Any Xenios USA® Product carries its own User and Assembly Manual (where required by the kind of the item), along with all the necessary Warnings about the assembling, installing and use of the same product.
Xenios USA® Warranty doesn't apply to the considered standard wear consequences of the use of a product. As mere example: chipping or fading out of painting and/or colors and/or galvanized-finishing is considered normal wear by the use of some of the Xenios USA® Products.

To file a Warranty claim about any Xenios USA® Product, just go to the Xenios USA® Service Desk (link can be found at www.xeniosusa.com) and fill the required form, or contact the Xenio USA Service Dept. by email at: service@xeniosusa.com.
Should a Xenios USA® Product be bought thru a Dealer or a Reseller, any Warranty claim has to be headed to the same first, by the warranty policies of the Dealer or Reseller the product was bought from.

Xenios USA® LLC reserves the right to make changes on the design and/or materials and/or Features and/or sizes of any Xenios USA® Product, without any formal notice. Xenios USA® Products Warranty doesn't cover any claim for products' specs and/or Features and/or outlook/appearance differences compare with the ones published on to any Xenios USA® marketing mean, such as Catalogues, Brochures or Web Sites.

Third Parties distributed Products: warranty on products that are not manufactured or labelled by Xenios USA® will be observed in accordance with the original product manufacturer's warranty rules. Additional warranty information can be found either on the Xenios USA® website third Party product pages and on the product pages of the product manufacturer's website. Examples of third Parties products distributed by Xenios USA® LLC are Assault Fitness® products or Concept2® Products.

Any specific issues regarding a Xenios USA® Product with which a customer is not satisfied will be reviewed on a case-by-case basis.

(1) Only for European Countries residents: individual purchasers for personal uses are always entitled to a Limited two (2) year Warranty on all Products, but expandable parts (that carry a 3 month only limited warranty) and Apparel items (that carry a 15 days only limited warranty only in case of manufacturing defects).

Rev. 2019/01/01 Thanks for choosing a Xenios USA® Product!
